SUMMARY

Data Science postgraduate with a specialization in Logistics and Supply Chain Management, with academic experience in time-series forecasting, statistical modeling, data analytics, and Python. My postgraduate research focused on demand shock analysis using ARIMAX Intervention Analysis and Bayesian Structural Time Series (BSTS), providing an interpretable framework for analyzing structural demand changes. Prior to my postgraduate studies, I gained over five years of professional experience across customer operations, web technologies, cloud infrastructure, and digital operations, building strong analytical, problem-solving, and cross-functional collaboration skills.

TECHNICAL SKILLS

- Python
- R Programming
- JavaScript
- HTML5
- CSS3
- Statistical Modeling
- Time-Series Forecasting
- Data Analytics
- Exploratory Data Analysis (EDA)
- Machine Learning
- Deep Learning
- Amazon Web Services (AWS)
- Server Management
- WordPress
- Magento
- Google Analytics (GA4)
- Google Search Console

PROFESSIONAL EXPERIENCE

Content Operations Lead — Jan 2022 - Feb 2024

Project - Blog & E-commerce Platform Management for Healthcare Products

- **Content Creation & Blogging:** Developed and customized WordPress-based blogging websites. Managed website advertisements using WordPress Advanced Ads and optimized on-page SEO through Rank Math, including redirections, XML sitemaps, and user role management.
- **E-commerce Management:** Leveraged Magento to develop product catalogs, update prices, and manage customer orders efficiently.
- **SEO & Analytics:** Performed keyword research, competitor analysis, and SEO audits using Ahrefs and Semrush. Monitored keyword rankings, backlink profiles, and organic search performance using KW Rank Tracker, Google Analytics (GA4), and Google Search Console. Optimized on-page SEO using Rank Math.
- **Server Management & Hosting:** Managed AWS-hosted websites, ensuring secure, scalable, and highly available hosting environments. Configured and maintained server infrastructure, including SSL certificates, monitored server performance, and resolved technical issues to ensure uninterrupted website operations.
- **UI/UX Optimization:** Resolved UI/UX issues using JavaScript, HTML5, and CSS3. Utilized Visual Studio Code, Notepad++, and Eclipse for development, debugging, and code maintenance.
- **Design Integration:** Utilized Canva to create visually appealing graphics, banners, and website elements, ensuring consistent branding and improved user engagement across platforms.

Solution Ambassador **Jun 2019 - Dec 2022**

Project - Travel Industry (Specializing in Cultural and Entertainment Venues such as Museums, Attractions, and Activities)

- **Handling Complex Issues:** Addressed customer concerns that required in-depth knowledge of products, services, company policies, or technical expertise.
- **Resolving Complaints:** Managed and resolved escalated customer complaints promptly and effectively to ensure customer satisfaction and retention.
- **Coordinating Solutions:** Collaborated with other departments to find appropriate solutions and ensure prompt resolution of customer issues.
- **Providing Guidance:** Offered support to frontline customer service agents in handling complex situations, ensuring smooth issue resolution.
- **Maintaining Communication:** Ensured clear and consistent communication with customers throughout the resolution process.
- **Handling Manual Bookings:** Processed manual bookings using ticketing platforms specifically designed for venues, museums, and attractions.
- **Payment Gateway Management:** Managed payment gateway operations involving fraudulent transaction reviews, chargeback handling, and generation of Payment Service Provider (PSP) references while resolving payment-related customer queries.

Tools Used: Freshdesk, Freshsales CRM, Freshchat, Freshcaller, Kustomer, Adyen

ACADEMIC PROJECTS

1. **Predicting Demand Shock Impact Using ARIMAX and Bayesian Structural Time Series (BSTS)** (*Python* || *ARIMAX* || *BSTS* || *Time-Series Forecasting* || *Statistical Modeling*)
- Developed an interpretable demand shock analysis framework using ARIMAX Intervention Analysis and Bayesian Structural Time Series (BSTS).
- Applied the Chow Test to detect structural breaks and estimated counterfactual demand to quantify the impact of demand shocks.
- Evaluated the framework using retail and electricity demand datasets to analyze structural demand changes.

2. **Brain Tumor Classification using Lightweight Convolutional Neural Network (CNN)** (*Python* | *TensorFlow/Keras* || *CNN* || *Deep Learning*)
- Implemented a lightweight CNN for brain tumor classification using MRI images.
- Evaluated model performance using standard classification metrics and explored efficient deep learning architectures.

3. **Demand Forecasting using LSTM and BiLSTM Networks** (*Python* || *LSTM* || *BiLSTM* || *Deep Learning*)
- Developed LSTM and BiLSTM models for time-series demand forecasting.
- Compared forecasting performance to evaluate recurrent neural network architectures for sequential data.

4. **Indian Liver Patient Dataset Analysis** (*R Programming* || *Statistical Analysis* || *Data Analytics*)
- Performed exploratory data analysis and statistical analysis on clinical data.
- Visualized demographic and biochemical variables to identify key factors associated with liver disease.

5. **Work Reminder Application** (*Python* || *Tkinter*)
- Developed a desktop reminder application with scheduling, notes, and snooze functionality.
- Designed an interactive GUI using Tkinter for improved usability.

EDUCATION

Master of Science in Data Science with Logistics and Supply Chain Management || **CGPA: 7.94**
Amrita Vishwa Vidyapeetham, Coimbatore July 2024 - May 2026

Bachelor of Technology in Mechanical Engineering || **CGPA: 6.8**
Biju Patnaik University of Technology (BPUT), Odisha Aug 2012 - June 2016

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- AWS Certified AI Practitioner
- AWS Certified Cloud Practitioner
- Career Essentials in Data Analysis (Microsoft & LinkedIn)
- PwC Power BI Job Simulation (Forage)

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Bengali
- **Awards/Activities:** Employer of the Month (June 2023)
